Understanding the Renaissance Nude: An Introduction

The renaissance nude is a genre of art that focuses on the depiction of the human body in its natural, unadorned state, emphasizing realism, anatomy, and beauty. It emerged as a significant subject during the Renaissance, a period spanning roughly from the 14th to the 17th century, characterized by a renewed interest in classical antiquity, scientific inquiry, and artistic expression.

During this period, artists sought to revive classical ideals of proportion, balance, and harmony, which they believed were the foundations of true beauty.
