Lesson 6: Subject Complements Answers ? An In-Depth Exploration

Understanding the nuances of sentence structure is fundamental to mastering English grammar, and one of the most essential components in this domain is the concept of subject complements. In Lesson 6, we delve into the intricacies of subject complements, their functions, types, and how to correctly identify and utilize them in sentences. This comprehensive review aims to clarify common misconceptions, provide detailed explanations, and furnish practical examples to enhance your grasp of subject complements.

What Are Subject Complements?

At its core, a subject complement is a word or phrase that follows a linking verb and provides additional information about the subject. It essentially "complements" or completes the meaning of

the subject by renaming or describing it. Without the subject complement, the sentence may be grammatically correct but semantically incomplete or ambiguous.

Key Points:

- Appears after a linking verb (such as is, was, seems, becomes, appears, etc.)
- Renames or describes the subject
- Necessary for the sentence's full meaning when using linking verbs

Example Sentences:

- The winner is she.
- His explanation was confusing.
- The sky appears blue.

In these examples, "she," "confusing," and "blue" are subject complements that complete the sentence.

Types of Subject Complements

Subject complements fall into two primary categories based on their grammatical nature:

Noun Complements (Predicate Nouns)

These are nouns or pronouns that rename or identify the subject.

Characteristics:

- Usually follow linking verbs
- Provide a new name or identity for the subject
- Can be a singular noun, plural noun, or pronoun

Examples:

- My brother is a teacher.
- The winners are they.
- It was John who called earlier.

Common Predicate Nouns:

- doctor, teacher, artist, student, winner, child

Adjective Complements (Predicate Adjectives)

These are adjectives that describe the subject directly.

Characteristics:

- Follow linking verbs
- Describe the subject's state or quality

Examples:

- The cake smells delicious.
- She seems happy.
- The night became cold.

Common Predicate Adjectives:

- happy, sad, tall, short, cold, bright, confusing

Identifying Subject Complements in Sentences

Correct identification of subject complements involves understanding their position and function in the sentence.

Steps to Identify:

- Locate the main verb: Is it a linking verb? (e.g., is, was, seem, become, appear, feel.)
- Find the word or phrase immediately following the linking verb.
- Determine whether this word renames (noun/pronoun) or describes (adjective) the subject.
- Confirm that removing this complement would leave the sentence incomplete or nonsensical.

Sample Analysis:

- Sentence: The sky is blue.
 - Linking verb: is
 - Complement: blue
 - Function: Describes the subject the sky
-
- Sentence: The winner was she.
 - Linking verb: was
 - Complement: she
 - Function: Renames the subject the winner

Common Mistakes and Clarifications

Misunderstanding subject complements often leads to grammatical errors. Here are some common pitfalls and clarifications:

- Confusing Subject Complements with Direct Objects
 - Incorrect: The teacher made her a leader. (Here, "her" is a direct object, not a complement.)
 - Correct: The teacher made her leader. ("Leader" is a predicate noun acting as a subject complement.)
- Using Adjectives as Complements Without Linking Verbs
 - Incorrect: The sky is blue.
 - Correct: The sky is blue.

(Note: In the correct sentence, "is" is the linking verb, and "blue" is the predicate adjective acting as a subject complement.)

- Omitting the Complement
 - Incorrect: The winner is.
 - Correct: The winner is she.

(The complement completes the sentence's meaning.)

Practice Questions and Answers

Engaging with practice sentences is essential for mastery. Below are sample questions with detailed answers.

Question 1: Identify the subject complement in the following sentence:

- The movie seems interesting.

Answer:

- Linking verb: seems
- Subject complement: interesting
- Function: Predicate adjective describing the movie

Question 2: Determine whether the complement is a noun or an adjective:

- The children became tired.

Answer:

- Linking verb: became
- Complement: tired
- Type: Predicate adjective (describes the children's state)

Question 3: Rewrite the sentence with a clearer subject complement:

- The winner was she.

Answer:

- The winner was she.

(This sentence correctly uses a predicate pronoun as the complement.)

Applying Knowledge: Constructing Sentences with Subject Complements

Practice constructing sentences helps solidify understanding. Here are some prompts:

- Use a linking verb and a predicate noun to describe a person.
- Use a linking verb and a predicate adjective to describe an object or situation.
- Combine these elements into meaningful sentences.

Sample Sentences:

- The artist is a visionary.
- The weather became stormy.
- My favorite fruit is mango.
- The night seems peaceful.

Summary and Key Takeaways
